## Shashi Singh

### Full Stack Developer

With 1yr+ hands-on experience developing, releasing, and maintaining large-scale online web-based applications, I have learned to own what I build as I create, test and refine the front end as well as web-services on the server side, following the motto of Discover, design, develop, deploy, debug. Repeat!

## Work Experiences

Full Stack Developer  
Meaww.com

 Nov 2016 to Present Bangalore

Meaww is a fully integrated entertainment company and has forayed into all forms of media, from FB quizzes, videos to articles to art and opinion pieces; which cater to all kinds of content needs of our users.

However, graduating with a Btech degree and having some skill in web developing, I was able to join Meaww as a full stack developer and I started coding for their product Fb-quizzes. After one year later, I am working with development & Social media marketing team.

## Education

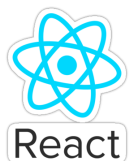

### Bachelore of technology

RCC Istitute of infromation technology, Kolkata, India  
(2012-2016)

"A college degree is not a sign that one is a finished product but an indication a person is prepared for life."

Going to college Helped me, Because i had four years in the conservatory program, which is close as you can get to a professional environemnt. Its like all day.

## Skills

# Portfolio

## Leopetra.com

Worked on Leopetra website using react.js.

Full Responsive Website, with admins having ability to update content on server.

A fully functional website where one can avail any information about pets and also can book Vets, Trainers, Saloon, Restaurants and Event tickets for their pets.

## WeberHead Design

This is my First website to show front-end work.

Full Responsive Website which is coded in html5 and css3.
